

Prague, 7 June 2021

Ref. No.: MZDR 46953/2020-7/MIN/KAN

MZDRX01GDBDY

## EXTRAORDINARY MEASURE

The Ministry of Health, as the competent administrative authority, pursuant to Section 80(1)(g) of Act No. 258/2000 Coll., on public health protection and amendments to certain related acts, as amended, **orders** this Extraordinary Measure, proceeding pursuant to Section 69(1)(i) and (2) of Act No. 258/2000 Coll., in order to protect the population from the further spread of COVID-19 caused by the novel coronavirus SARS-CoV-2:

### I.

Effective from 11 April 2021, all healthcare service providers who were supplied with a medicinal product containing a substance against the COVID-19 disease and purchased from state budget funds based on Commission Decision C(2020) 4192 of 18 June 2020, approving the agreement with Member States on procuring COVID-19 vaccines on behalf of the Member States and related procedures (hereinafter the "provider") are ordered to determine a deadline for administering the second dose of the medicinal product - vaccination substance as follows:

1. COMIRNATY 500MCG/ML INJ CNC DIS 195X0.45ML, Reg. No. EU/1 /20/1528/001 SÚKL code 0250256 - date for administering the second dose between 38 and 42 days after administering the first dose,
2. VAXZEVRIA 2,5X10A8INF.U/0,5ML INJ SUS 10X5ML, Reg. No. EU/1/21/1529/002, SÚKL code 0250388 - date for administering the second dose between 84 and 91 days after administering the first dose,
3. COVID-19 VACCINE MODERNA 0.2MG/ML INJ DIS 10X5ML, Reg. No. EU/1/20/1507/001, SÚKL code 0250303 - date for administering the second dose between 25 and 35 days after administering the first dose,

### II.

This Emergency Measure takes effect on the date of its issue.

### III.

Effective from 11 June 2021, this extraordinary measure cancels the extraordinary measure of 6 April 2021, Ref. No. MZDR 46953/2020-6/MIN/KAN.

### Rationale:

The Extraordinary Measure has been issued in connection with the development of the epidemic situation in terms of the occurrence of the COVID-19 disease, caused by the novel coronavirus designated as SARS-CoV-2 in Europe and the EU. This measure is one of the important prerequisites for preventing the spread of COVID-19 and is adopted to further

accelerate the easing of the extraordinary measures adopted in relation to the epidemic spread of COVID-19 in the population.

The extraordinary measure is issued in connection with extraordinary measure Ref. No. MZDR 46953/2020-6/MIN/KAN, which introduced a delay between the administration of the first and second dose of the Comirnaty, Moderna and Vaxzevria (then AstraZeneca) vaccines. This extraordinary measure extended the intervals between the first and second dose in order to allow more people to be vaccinated with at least the first dose in a situation of limited supply of vaccines to the Czech Republic.

Given the increased supply of Moderna vaccine, this extraordinary measure allows a return to the recommended administration interval of 28 days for the second dose of Moderna vaccine, i.e. an interval of 25 to 35 days. It should be stressed that the SPC allows for a second dose to be administered up to 42 days later, but whenever possible and unless there is a shortage of doses in the Czech Republic, the date of administration of the second dose should be within the period recommended by the manufacturer.

For the Comirnaty and Vaxzevria vaccines, the Ministry of Health has decided to continue the administration of the second dose at the interval specified in Extraordinary Measure Ref. No. MZDR 46953/2020-6/MIN/KAN, given the persistent shortage of vaccines from these manufacturers in the Czech Republic, which does not allow shortening the intervals between doses without jeopardizing the administration of the first doses to other groups of citizens and, above all, the proper administration of the second doses in accordance with the SPC (i.e. at a maximum interval of 42 days for Comirnaty and 91 days for Vaxzevria).

**Mgr. et Mgr. Adam Vojtěch, MHA, undersigned**  
Minister of Health
