- k) in case of a minor child travelling with his or her legal guardian or accompanying another person who holds a national vaccination certificate or a national certificate of completed vaccination, or who is a person who has undergone COVID-19, and the validity of the certificate is longer than the intended length of stay; this provision cannot be used for school trips and similar group arrivals;
- l) if the entry is in the interest of the Czech Republic's foreign policy, which is decided only by the Minister of Foreign Affairs; provided that they meet the conditions for entering as defined in this Protective Measure and are otherwise authorised to enter the territory of the Czech Republic;

III. determines

1. that the list of countries or territories with a low, medium, high and very high risk of incidence of COVID-19 is made based on the criteria specified in Council Recommendation (EU) 2020/1475 on a coordinated approach to facilitate safe free movement during the COVID-19 pandemic, with the criteria being:
 - a) the "14-day cumulative COVID-19 case notification rate", i.e. the total number of newly notified COVID-19 cases per 100,000 population in the last 14 days at regional level;
 - b) the 'vaccination rate', i.e. the cumulative rate of complete vaccination rate by primary vaccination in the general population at regional level;
 - c) the "testing rate", i.e. the number of tests for COVID-19 infection conducted during the last week per 100,000 population; while the following conditions also apply:

to achieve an overall score, the fortnightly case reporting rate (C) should be weighted by the vaccination rate (V) in the region. If the value of either of these two criteria is not available at regional level, the value at national level should be used. The following formula should be used for this purpose: $(C+C*(100-V)/100)/2$ =weighted rate and therefore

 - i) the list of countries or territories with a low risk of incidence of COVID-19 always contains the Member States of the European Union or, as the case may be, their parts, for which the weighted rate is lower than 40,
 - ii) the list of countries or territories with a medium risk of incidence of COVID-19 contains the Member States of the European Union or, as the case may be, their parts, for which the weighted rate is lower than 100, but higher than 40 or more,
 - iii) the list of countries or territories with a high risk of incidence of COVID-19 contains the Member States of the European Union or, as the case may be, their parts, for which the weighted rate is lower than 300, but higher than 100 or more,
 - iv) the list of countries or territories with a very high risk of incidence of COVID-19 contains the Member States of the European Union or, as the case may be, their parts, for which the weighted rate is higher than 300 and the testing rate is 600 or less,

the list of countries or territories is issued in the form of a protective measure;

2. that complying with the obligation to present a Public Health Passenger Locator Form means presenting the form in such a format, which allows for definite identification of the holder and checking the filled out information; an electronic Public Health Passenger Locator Form is available on the website www.prijezdovyformular.cz; the personal data
